**Disasters:****Declaration Number**

FEMA-1758-DR-AR

**Narratives****Disaster Damage:**

FEMA Disaster #1758 On May 20, 2008, President Bush issued a Presidential Disaster Declaration for Arkansas counties damaged by tornadoes and flooding from storms that hit the state beginning May 2nd. The following 12 counties were included in the disaster declaration: Arkansas, Benton, Cleburne, Conway, Crittenden, Grant, Lonoke, Mississippi, Phillips, Pulaski, Saline and Van Buren. Ongoing Damage Assessment Assessing the total financial needs of the state resulting from the disasters is a difficult and ongoing process. To determine the extent of damages in each county, the Arkansas Economic Development Commission (AEDC) received from the Arkansas Department of Emergency Management (ADEM) FEMA data, estimating the extent of public damages in each county by disaster. In addition, the AEDC solicited community and county damage information from each of the state's eight Planning and Economic Development Districts ("Districts"). In estimating the need for CDBG assistance in the affected counties, the AEDC will rely upon information supplied by FEMA, ADEM, and the mayors and county judges of Arkansas in conjunction with each district. Since the full extent of the state's needs cannot be determined at this time, the initial Action Plan will only outline the major categories for funding with estimated dollar amounts set aside for each District.

**Recovery Needs:**

Methodology Used to Distribute Funds A. Allocation Formula To insure that local needs are addressed in a timely and equitable manner, the state will rely on assistance from the eight Districts in the state. Because Arkansas's Districts have toured areas affected by the disasters and have maintained ongoing dialogue with every unit of local government affected by the 2008 disasters, they are therefore well qualified to inform the AEDC of local recovery needs. On February 5, 2009 the state held a meeting of key stakeholders to assist in the development of an equitable method to distribute CDBG supplemental appropriations. Attendees included representatives from each District, as well as representatives from the Arkansas Community Development Association (ACDA), the organization of Arkansas entitlement cities. Also in attendance were representatives from the IEA and ADFA. As a result of this meeting, a task force was established to assist in the development of a distribution method. The task force recommended that a formula be developed that would set aside funds for Districts to distribute to cities and counties within their geographic area. The proposed formula would use the following variables to determine the amount of money to set aside for each District. 1. The amount of Public Assistance (PA) damage assessed in each county by FEMA for disaster FEMA #1758 (50% of the scoring). 2. The percentage of low-to-moderate income (LMI) persons residing in each county as documented by the 2000 Census (25% of the scoring). 3. The number of LMI families residing in each county as documented by the 2000 Census (25% of the scoring). Based upon preliminary calculations\* funding for all disasters would be distributed among Districts as follows: • Central Arkansas Planning & Development (Six counties) - \$953,765 • East Arkansas Planning & Development (Twelve counties) - \$1,250,328 • Northwest Arkansas Economic Development District (Nine counties) – \$293,763 • Southeast Arkansas Economic Development District (Ten counties) - \$915,606 • West Central Arkansas Planning & Development (Ten counties) - \$374,867 • White River Planning & Development District (Ten counties) - \$722,078 Southwest Arkansas Planning and Development District and Western Arkansas Planning and Development District would receive no funding because none of their counties were included in the defined disaster area declared by FEMA #1758. \*Note: These amounts exclude 5 percent of the allocations for administration costs. Adjustments to these amounts may be made should more reliable damage information become available. Pre-Application Process The task force also reviewed and approved a one-page pre-application form developed by AEDC that cities and counties would be required to complete to request disaster funding. To expedite the pre-application review process, the task force agreed with an AEDC recommendation that the Districts assist in the initial screening of projects for general compliance, eligibility and need. The pre-applications will then be forwarded to AEDC for scoring. The highest scoring applicants within each District will be invited by the AEDC to submit a full application for funding. The task force is currently developing scoring criteria based upon the following variables including, but not limited to: 1.

Urgency of need, as defined by the degree of threat to the health, safety and welfare of the communi

**Recovery Needs:**

ty 2. Percentage of persons in the project area who are of low to moderate income 3. Extent of loss of housing units in the neighborhood community or county, especially those units affordable to low and moderate income persons 4. Time frame for completion of the project 5. Number of declared disasters affecting the county in 2008 6. Amount of total dollar damage affecting the applicant area Final variables and exact weighting of each variable will be determined by the task force at a later time, prior to initiation of the pre-application process. Counties and cities, including entitlement cities are eligible to submit pre-applications for funding consideration. All projects must meet a national objective and provide disaster relief, long-term recovery, or restore infrastructure. Any funds not used in any District may be transferred to another District at the discretion of the AEDC. Under no circumstances may funds duplicate other benefits.

**Overall Progress Narrative:**

In the Quarter ending March 31, 2016 ... 98% of grant B-08-DI-05-0001 has been committed/executed. Draws totaling \$322,313.73 were disbursed this quarter (payments made to cities/counties), and average of 92.45% of grant B-08-DI-05-0001 has been drawn at the end of the 1st

Qtr. ending March 31, 2016. Three (3) grants were closed this quarter with all project actives complete, grants closed and accomplishments added to DRGR. De-obligations totaling\$5,04625have been performed on these grants. These funds will be used in other projects.

In Jan. 2016 Draws totaling \$68,638.57 were disbursed (payments made to cities/counties),92.16%ofgrant B-08-DI-05-0001 has been drawn at the end of Jan. 2016.

In Feb. 2016 Draws totaling \$196,400.64 were disbursed (payments made to cities/counties),92.38%of grant B-08-DI-05-0001 has been drawn at the end of Feb. 2016.

In Mar. 2016 Draws totaling \$57,274.52 were disbursed (payments made to cities/counties), 92.45%of grant B-08-DI-05-0001 has been drawn at the end of Mar. 2016.

**Activity Description:**

The project consists of the demolition of a dilapidated jail located in the downtown Helena/West Helena area. The jail is in severe decay and has become an eyesore to the community. During the heavy rain and winds of the 2008 disaster, the building sustained more damage, resulting in numerous unstable bricks. After a recent inspection by a specialist, it was found that the building contained lead paint which is a health hazard. The present building is contributing to slum and blight in the surrounding area.

**Location Description:**

626 Cherry Street, Helena, Phillips County, Arkansas.

**Activity Description:**

The project consists of the rerouting of the force main discharge point of the City of McGhee’s sewer system. The Freidman Street Pump Station currently discharges into an existing gravity sewer main. The point of the discharge is somewhat shallow and the gravity line is at minimum grade. During excessive rainfall events, like that of the FEMA declared disaster #1751, the gravity line becomes overwhelmed and backs up into residences. There are also several other residences that commonly have reduced function. This raises a very significant health issue. The flooding that occurred during the 2008 Flood Disasters have worsened the condition and this issue continues to plague the City.

**Location Description:**

Freidman Street Pump Station, McGehee, Desha County, Arkansas.

### Activity Description:

The project consists of repairs to the Running Lake Drainage District in Randolph County. The District is bounded by Current River on the east, the Ozark foothills on the west, State Highway 328 on the north and the south line of Sections 16, 17 & 18 on the south and contains approximately 21,720 acres. The area drains by gravity into the Fourche River approximately 28 miles from its confluence with the Black River. The District's drainage facilities consists of approximately two miles of open ditches and 35 structures. Rapid runoff from the adjacent Ozark foothills causes chronic field and road flooding. Unusually heavy rains associated with the 2008 disaster washed fields and silted the ditches, reducing their capacity and causing severe field flooding. Excess water resulting from poor drainage, restricts the timing of planting, tillage, harvesting and the efficient utilization of labor and equipment. Several county roads are also frequently flooded and made impassible.

### Location Description:

Running Lake Drainage District in Randolph County, Arkansas

### Activity Progress Narrative:

Due to the storms of 2008, Randolph County and the Running Lake Drainage District experienced field and road flooding. This caused washed fields and silted ditches which reduced their capacity. CDBG funds were used to clear approximately 45 miles of ditches and excavated them to the original grade and section. Also 24" drop pipes were restored. This was an Urgent Need/Imminent Threat project. Of the 17,969 residents of Randolph County, 7,220 were considered LMI. The project was completed on 9.4.2014. The activity was closed on 1.14.2016. Unused funds in the amount of \$4,650.00 were deobligated.

**Activity Description:**

The project consists of improving drainage conditions in Mammoth Springs. The project involves installing a concrete channel along Bethel Avenue, installing concrete culverts at 2nd and 3rd Streets, and cleaning and excavating ditches on those streets. The project will benefit the entire population of Mammoth Springs with 977 persons, of which 500 are LMI, resulting in a LMI of 51.2%.

**Location Description:**

Bethel Avenue, 2nd and 3rd Streets, Mammoth Springs, Fulton County, Arkansas

**Activity Progress Narrative:**

Due to the storms of 2008, the City of Mammoth Spring experienced heavy flooding. The drainage culverts were not large enough to handle the storm flow and an embankment was breached. Through the CDBG project, a 700 L.F. channel was excavated and lined with concrete. The two culverts were replaced with larger concrete box culverts. The residents now have improved infrastructure which will mitigate any future storm flooding. Of the 977 citizens of Mammoth Spring, 500 are considered LMI at 51.30%. The project was completed on 12.9.2015. The activity is closed as of 3.31.2016. All funds were used.

**Activity Description:**

The project consists of the rehabilitation of the two water wells in the town of Garland. Well #1 has been out of service for many years. This project would return Well #1 to service. Well #2 has been reliable, but this project would add a generator and do electrical repairs to Well #2. Garland has a population of 352 residents, 64% of whom (225 persons) are considered LMI.

**Activity Description:**

The project consists of stabilizing the drainage system in the Diamond Creek area in the City of Cabot in order to control flooding and improve drainage. The City of Cabot is seeking relief from flooding conditions in the southern part of the city; the 2008 flooding events caused major erosion damage and subsequent siltation problems within the drainage system. The project included paving ditches throughout the length of the drains, removing sediment from existing storm water detention ponds, and constructing concrete headwalls on the existing drainage structure. The improvements outlined herein will provide adequate storm water drainage facilities to greatly reduce the flooding conditions. In order to prevent further erosion damage, it is necessary to provide erosion control measures throughout the drainage system. The erosion represents an imminent threat to existing infrastructure, residences and businesses in the vicinity of the drainage system.

### Activity Description:

The project consists of removing and replacement a low water roadway bridge for the City of Tontitown. The current bridge in place is too mow for high water conditions that occur during severe weather conditions. The abundance of water causes water flow to clock up and makes the bridge unsafe for travel purposes. The overflow of water has also causes damage top the concrete portion of the deck between the army grid units and is breaking apart at the east and west bridge ends. The project of removing and replacing the bridge will help to fix an urgent need and imminent threat to the 2,460 residents of the city.

### Location Description:

Brush Creek near Javella Road and Brush Creek Road, City of Tontitown, Washington County, Arkansas

### Activity Progress Narrative:

Due to the storms of 2008, the City of Tontitown's low water bridge on Brush Creek Road at Brush Creek Crossing was damaged by high water and considered unsafe. This CDBG grant removed the damaged bridge and constructed a new bridge. This project was consider Urgent Need/Imminent Threat to the 2,460 residents of the City. 738 are considered LMI for a 29.93%. This project was completed on 4.14.15. This activity is now closed as of 1.26.2016. Unused funds in the amount of \$396.25 have been deobligated.
